INVITATION TO
SPONSORSHIP AND EXHIBITION

Indoor Air 2028 invites you to Denmark, to share experience and knowledge within the Indoor environmental sciences.

The Indoor Air conference series stands as the world's leading scientific platform for advancing knowledge and solutions in indoor air quality and climate. Since its inception in Copenhagen in 1978, this prestigious series has brought together the brightest minds in science, engineering, public health, industry, and policy to address one of our time's most pressing challenges: how we create healthier, more sustainable indoor environments where people spend over 90% of their lives.

As we face climate change, resource scarcity, and increasing environmental pressures, optimising indoor air quality is essential. Smart cities and sustainable buildings demand innovative approaches that balance human health, comfort, and environmental stewardship.

Indoor Air 2028 in Copenhagen, with the conference theme "*Half a century of Indoor Air: Let's define the second half!*", will celebrate 50 years of the conference series, remember the milestones achieved, and set the stage for the future of indoor environmental sciences.

Join this fantastic community in which shared values bring together science, technology, and cooperation to move us towards healthier, more resilient indoor spaces for future generations.

Why Should You Support the INDOOR AIR 2028 Conference?

By supporting Indoor Air 2028 you become part of a movement to redefine this important field and bring interdisciplinarity to a new level by bringing together new scientific fields in order to tackle some of the most pressing environmental issues of our times.

Kind regards,

EXHIBITION AT INDOOR AIR 2028

A commercial exhibition will be arranged in conjunction with the conference.

The exhibition will also take place at Technical University Denmark during Indoor Air 2028. Exhibiting provides an unparalleled opportunity to reach professionals, academics, practitioners, decision makers, policy makers from all over the world.

We will integrate the commercial exhibition with the poster exhibition and the catering services and thus ensure that the exhibition becomes an integral part of the entire conference.

Exhibition information

The exhibition will be open during conference hours, 10-13 July 2028, co-located with daily lunch and poster sessions. There will be rich opportunities for lively interaction with the full conference audience in a very central setting. The program-structure will allow time for the participants to visit your stand.

Venue Address

DTU – Technical University Denmark Building 101, 2800 Lyngby, Denmark

How to apply for Exhibition Space

Please send your request for exhibition space to exhibition@discongress.com

Every effort will be made to accommodate exhibitors' request for space and position.

The floor spaces are assigned on a "first come - first served" basis. Application for floor space should be made on an Application and Contract for Floor Space form. This form will be distributed at a later stage. The form should be signed and returned to DIS. The application form is legally binding.

DIS reserves the right before the construction of the stands to modify the exhibition floor plan. A full technical manual giving further general and technical information, advice and full details about the exhibition, venue, organizers and ancillary services will be available to exhibitors and will be circulated early 2028.
